Clarification regarding the application of Regulation 16.17.002 for handcycles

The Commissaires Panel in conjunction with the Technical Commissaire confirm that they performed visual checks during the ITT equipment checks to ensure that the required position could be obtained by the riders. In the absence of any measurement equipment or protocol to reliably monitor every rider's line of sight during a race, the Commissaires can only perform random checks after the start and act on these observations.

As per article 12.4.001 race infringements are exclusively pronounced by the Commissaires and are not subject to appeal unless a fine is more than CHF 500 (for Para World Cup).
