

UCI PARA-CYCLING TRACK WORLD CHAMPIONSHIPS

APELDOORN 2015 | THE NETHERLANDS

26 – 29 March 2015

COMMUNIQUÉ FROM TIMING EXPERT

To all teams,

Please find attached the csv files from Apeldoorn Para-Cycling Track World Championships.

These files will help you analyse data for the athletes' times and splits obtained from timing.

Notice :

There was no electronic link between the timing computer and the official results computer. All Electronic official times were taken manually to generate the official results. All time trial splits are official as they have been taken and verified by three persons (electronic, Photo-finish and Commissaire).

As many of you have seen during the pursuits, we often needed to use the backup photo-finish timing, so some electronic splits may be wrong in the files provided by the local timekeeper. I apologize for this, but emphasis was made to get each official kilometer time and the official final time for each rider. Each kilo split can be found in the results from pursuits in the official folder.

In the unofficial folder, you will find raw data provided by the local timekeeper. These splits have not been verified and I cannot approve them, but I distributed them to allow you to analyse your athletes' performances and give you the opportunity to get data if they are correct. If not, there is no correction possible.

The UCI and I will work together to prevent this kind of problem to happen in future and to be able to distribute official data for all athlete.

Sylvain Richard
UCI Para-Cycling Timing Expert
